#### ENVIRONMENTAL CONCERN AND AWARENESS

To our company represents a prudent use of resources and energy, environmentally friendly methods of production and care for the environment, part of social responsibility and awareness.

Using environmentally friendly packaging, promotional materials and recycled materials, represents only a part of our environmental responsibility, which is dedicated to materials that we use. This is followed, of course, by environmentally friendly production methods; Modern galvanization line, waste water treatment, re-use of waste materials, round up the social and environmentally responsible management of our company.

Another focus of our environment concern is intended foremost to safety and energy conservation. Emphasis is given to the solutions in the form of products, which are mainly focused on deliberate approach to water consumption savings, energy efficiency and energy saving and thereby conserving natural resources. Our aim is a high quality, safe and economical product that provides an efficient use for years to come.

#### UMWELTBEDENKEN UND UMWELTBEWUSSTSEIN

Ein umsichtiger Einsatz von Ressourcen und Energie, umweltfreundliche Produktionsmethoden und Sorge für die Umwelt stellen für unseres Unternehmens einen Teil der sozialen Verantwortung und Bewusstseins dar.

Die Verwendung umweltfreundlichen Verpackungen, Werbematerialien und recycelten Materialien stellt nur einen Teil unserer Umweltverantwortung, die den von uns verwendeten Materialien gewidmet ist, dar. Dies wird natürlich durch umweltfreundliche Produktionsmethoden gefolgt; moderne Verzinkungslinie, Abwasserbehandlung, Wiederverwertung von Abfallmaterialien, runden das soziale und umweltverantwortliche Management unseres Unternehmens auf.

Ein weiterer Schwerpunkt unserer Umweltbedenken wird vor allem für die Sicherheit und Energieeinsparung zugeschlagen. Die Betonung wird den Lösungen in Form von Produkten gegeben, die vor allem auf absichtlichen Ansatz zur Wasserverbrauchseinsparung, Energieeffizienz und Energieeinsparung und damit der Schonung der natürlichen Ressourcen ausgerichtet sind. Unser Ziel ist ein hochwertiges, sicheres und wirtschaftliches Produkt, das eine effiziente Nutzung für die kommenden Jahre bereitstellt.

#### PREOCUPAREA ȘI CONȘTIENTIZAREA PRIVIND MEDIUL ÎNCONJURĂTOR

Pentru compania noastră, utilizarea prudentă a resurselor și energiei, a metodelor de producție care nu afectează mediul înconjurător și protejarea acestuia reprezintă o parte integrantă a responsabilității sociale și conștientizării aspectelor privitoare la aceasta.

Utilizarea ambalajelor și materialelor promoționale care nu afectează mediul, precum și a materialelor reciclate reprezintă doar o parte a responsabilității noastre, privind materialele pe care le utilizăm. Bineînțeles este urmată de metodele de producție care nu afectează mediul.

Linia modernă de galvanizare, tratarea apelor reziduale, reutilizarea deșeurilor completează managementul responsabil, din punct de vedere social și de mediu, al companiei noastre.

O altă concentrare a preocupării noastre față de mediu are ca obiectiv fundamental siguranța și conservarea energiei. Se pune accent pe soluții referitoare la forma produselor, acestea fiind centrate în principal, pe abordarea deliberată a economiei de apă consumată, eficiență energetică și astfel, conservarea resurselor naturale. Suntem orientați spre obținerea unui produs de calitate superioară, sigur și economic, care să asigure o utilizare eficientă timp de mulți ani.

Fresh

### FRESH IR

When well thought out and sophisticated shape of family FRESH, is combined with first-class functionality of sensor mixer. Sensor mixers in addition to the hygiene aspect which they put to good advantage in hospitals and public places, provide also to our end users the comfort and safety with possibility of setting the water temperature. Significant saving aspect presents one of additional reasons why more and more of our customers decide to use a sensor mixer also at home. In our assortment of top quality sensor mixers FRESH, the mixing as well as non-mixing taps can be found. They are of various shapes and designs, have possibility of battery, as well as the network version.

### FRESH IR

Wenn gut durchdachte und anspruchsvolle Form der Familie FRESH mit einer erstklassigen Funktionalität der Sensorarmatur kombiniert. Neben dem Hygieneaspekt, der einen guten Vorteil für Krankenhäuser und öffentlichen Plätzen setzt, garantieren die Sensorarmaturen auch für unsere Endkunden den Komfort und Sicherheit mit der Möglichkeit einer Wassertemperatoreinstellung. Erhebliche Einsparungen stellen einen weiteren Grund dafür, dass sich immer mehr unserer Kunden entscheiden, eine Sensorarmatur auch zu Hause zu verwenden. In unserem Sortiment von hochwertigen FRESH Sensorarmaturen können sowohl Mischarmaturen als auch Nicht-Mischarmaturen gefunden werden. Sie sind in verschiedenen Formen und Designs, mit einer Möglichkeit der Batterie, oder aber als Netzwerkversion erhältlich.

### FRESH IR

Atunci când forma bine gândită și sofisticată a familiei FRESH este combinată cu funcționalitatea de primă clasă a bateriei cu senzori. Pe lângă aspectul referitor la igienă, care aduce un avantaj important pentru unitățile medicale și spațiile publice, bateriile cu senzori asigură utilizatorilor noștri finali de asemenea, confort și siguranță, cu posibilitatea reglării temperaturii apei. Aspectul economiilor semnificative reprezintă un alt motiv pentru care din ce în ce mai mulți clienti decid să utilizeze o baterie cu senzori și acasă. În cadrul sortimentului nostru de baterii cu senzori FRESH, de calitate superioară, există baterii cu și fără amestecarea apei. Aceste baterii sanitare pot fi alimentate cu baterii sau de la rețea electrică.
